

APPAREL WEIGHT TYPE

The Apparel Weight Type guide is an indicator of the type of fabric weight used to construct the apparel item. This will help give you an idea for the weight of the apparel item you are considering to purchase.

HELP TIP: The below guide indicates the fabric weight in Ounces Per Square Yard (OSY) and Grams Per Square Meter (GSM). The Apparel Weight Type does not indicate the actual apparel item weight. It only indicates the range for the type of fabric weight used to construct the apparel item.

APPAREL WEIGHT TYPE		FABRIC WEIGHT OZ./SQ. YD. (OSY)	FABRIC WEIGHT GRAMS/SQ. YD. (GSM)
ULWA	Ultra Light Weight Apparel	2 - 4 OSY	68 - 136 GSM
LWA	Light Weight Apparel	4 - 6 OSY	136 - 204 GSM
MWA	Medium Weight Apparel	6 - 9 OSY	204 - 305 GSM
HWA	Heavy Weight Apparel	9 - 12 OSY	305 - 407 GSM
